Migrate to Azure with Confidence!

Conduct the Assessment. Tailor the Plan. Make the Transition.

Transitioning your business-critical workloads from on-premise to cloud does not have to be challenging or intimidating. But, how? When? What will be moved first? And, what will be next? We help you get answers to these pressing questions and more. Time to confidently migrate to Azure and enjoy the merits of saving costs, time, space, workforce effort and ensure business continuity.

Engage the Experts
Azure Migration Consultancy

Our end-to-end migration consultancy services cover all aspects of your journey to cloud; starting from your migration strategy up-to implementing and maintaining your digital environment on cloud.

Our certified cloud experts technically assess your current infrastructure, provide briefings and plans to move ahead, conduct workshops & brainstorming sessions, deliver POCs, implement and host/manage the migrated environment in accordance with your business needs.

Towards Business Continuity
Workloads to Migrate

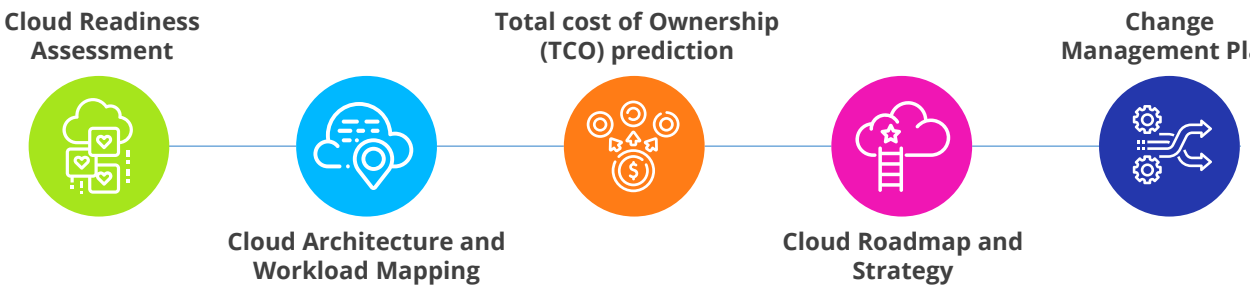
Ensure secure migration of your diverse digital workloads.

- Market Business Application: Oracle, SAP, IBM, or Open Source or others
- Microsoft Workloads that include Microsoft Infrastructure Modernization, Datacenter Transformation & Business Continuity, and Office 365 Migration & Deployment.
- Virtual Appliances such as Fortinet, Barracuda, F5, Citrix, and more.

Evaluate Your Cloud Readiness
Conducting Assessment. Tailoring the Plan.

We kick off our engagement with a thorough assessment to evaluate your cloud adoption strategy and current digital assets and workloads. We work closely with your teams, engage in workshops to grasp the complete picture of the business and envision what needs to be migrated and when in alignment with your business objectives. We run extensive analysis of your network, infrastructure, and business solutions. We use a range of best-in-class analysis tools and combine this with our expert investigations and findings.

Building on the insights of the assessment, and as every cloud journey is different, we propose a tailored cloud strategy including key deliverables that include the proposed cloud architecture with a complete roadmap for a successful transformation, in addition to the KPIs to monitor and the expected ROI.



We are a Microsoft Global SI (System Integrator) Partner, Certified CSP (Cloud Service Provider), with 17 Gold and Silver Microsoft competencies such as Gold Cloud Platform, Gold Cloud Productivity with advanced specializations in Windows Server and SQL Server Migration to Microsoft Azure and Modernization of Web Applications to Microsoft Azure.

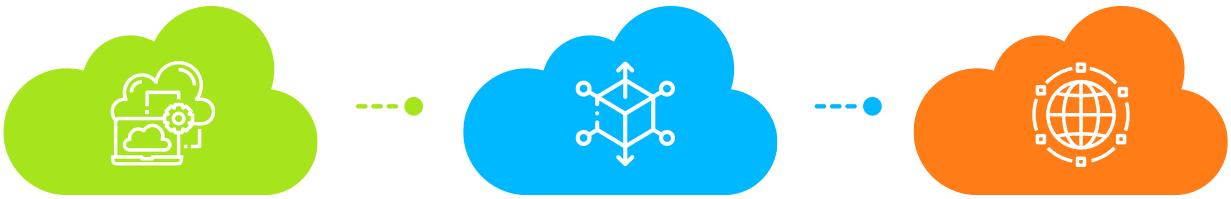
Ascend the Cloud Journey: Migrate. Extend. Transform

Shifting Gears to Azure
Cloud Consultancy and Implementation Services

In an agile Migrate, Extend and Transform approach, we architect your move to a new environment on cloud. Our Cloud Consultancy and Implementation services arm provides thorough migration assessment, workshops, POCs, Lift & Shift and modernization implementations for Microsoft and non-Microsoft workloads in addition to Cloud Managed Services.

Migrated solutions are extended with integrations, automated provisioning (CI/CD), security best practices assessments, high-availability, and resilient infrastructure, for better business performance. For legacy applications, we set you modernization strategy and roadmaps, implement intelligent application refactoring, migration and DevOps up to continuous application extension and management on cloud towards hybrid or full transformations to PaaS and SaaS.

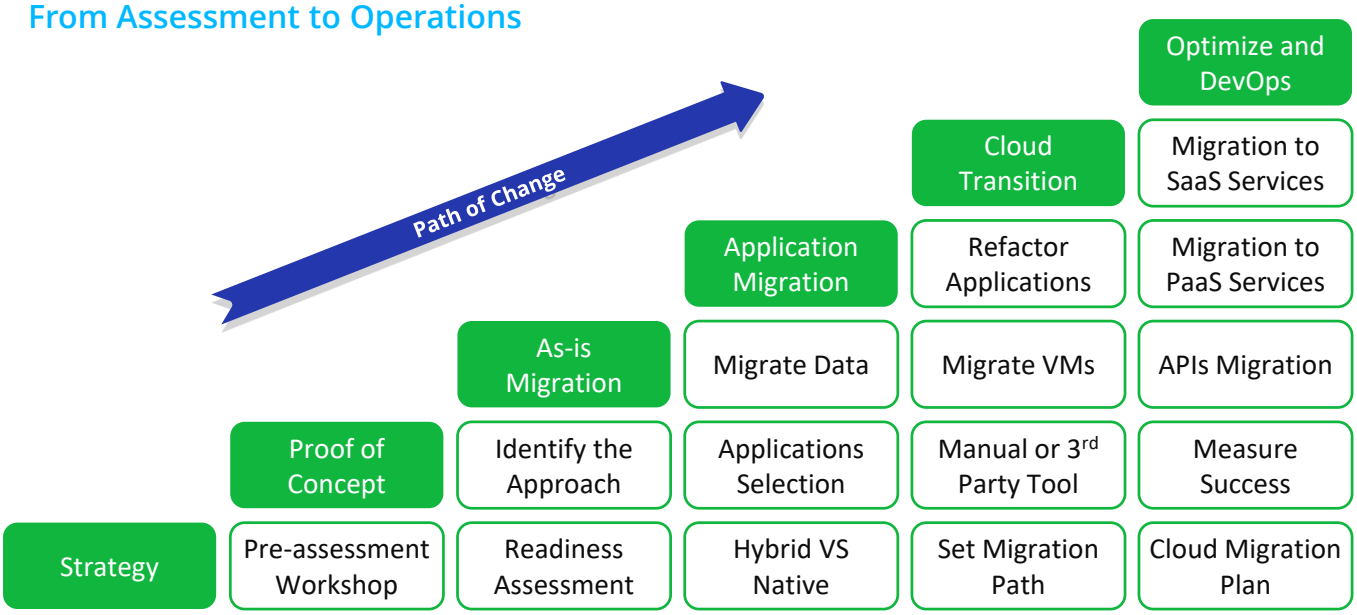


Migrate
- Assess & Plan
- Lift and Shift
- Cloud Managed Services

Extend
- Integrate with On-Prem & Hybrid
- Build New Apps
- Drive Analytics

Transform
- Applications Refactoring
- Utilize PaaS Services
- Shift to SaaS Applications

Consultancy Blueprint
From Assessment to Operations



Why Link Development?
